Subject: 2018 QC Year End Report

Below you will find the 2018 Year-End Report for Quality Control of the GC-Lect media and Modified Thayer Martin II (MTM II) media, performed at the State Laboratory of Public Health. This report serves as a summary of all accepted and rejected lots of GC-Lect agar plates, Modified Thayer Martin II (MTM II) plates and Type C Bio-Bags distributed to local health departments in 2018. In order to be CLIA compliant, this information must be retained with your QC records for at least two years.

After a lot of GC-Lect or Modified Thayer Martin II (MTM II) media has undergone quality control testing, a memo is sent to each county for their records informing them of the QC results. This is sent electronically via e-mail and also placed on the North Carolina State Laboratory Public Health public website.

If you have any questions, please contact Angie Bradley in Laboratory Improvement at (919) 807-8745.

Thank You,

Angela Bradley
